## ALARM UNIT

### KSH-3

**KSH-3 is an alarm unit, which has both sound and light alarm and also an alarm transfer relay with potential free change-over contact. Sound alarm can be turned on and off by switch on the side of the box. The power cord (standard length 3m) is ready installed in factory.**

**As an alarm device a float switch or capacitive proximity switch (eg. IFM K10016) can be used. Proximity switch provides alarm before the surface under control touches it.**

#### Technical information

Rated voltage: 230 V AC
Rated current: 1,5 A
Power consumption: ~ 30 mA
Alarm circuit voltage: 15 V AC
Alarm: LED signal light, piezo buzzer
Protection class: IP20
Cases measures: 125 x125 x 75mm
Weight (alarm unit): 0,5kg
